

SENIOR ONE AGRICULTURE

INSTRUCTION.

Attempt all numbers

ITEM ONE

1. Mr Mutyaaba a farmer in Ggangu employed three men to plant his beans, maize and tomatoes on his land at the start of the raining season. After four weeks some spaces were found in the maize garden, the bean's leaves had some holes on them. At the end of the season, the yields of tomatoes were good and he started harvesting for sale. Some tomatoes rotted when they were in storage and also the roads were poor due to rains. He consulted the village Agricultural coordinator on how best he can attain money from his harvests as he needed money to pay school fees for his elder son at Kyambogo university who was also doing a course of farming.

TASK

- a) As an agriculture, what advice do you think the coordinator gave Mr Mutyaaba the farmer? (6 marks)
- b) Identify at least four agricultural careers in the extract above (4 marks)

ITEM TWO

2. Catherine was found using an axe to dig holes for planting her beans, she also uses a broken plastic jerrycan to feed her hens, her two bulls haven't been castrated since their mother gave birth to them before being sold off. In the evening, she waters her plants using a jug.

TASK

- a) Identify the four right tools that should be used for each of the activities mentioned above. (4 marks)
- b) Explain how Catherine can maintain and keep the above tools in proper working conditions. (6 marks)
