

GEOGRAPHY S.1

Item 1

A community group to which you belong organised a tour around your school community on the environment to identify the various natural features and human activities around.

Task.

You were identified as a student from that school and your role is to identify the above feature and help the community group to represent them on a sketch map.

Item 2

You have just completed your studies in secondary school. Among the subjects studied was geography. Your school is hosting a national debate you are invited as the guest speaker.

Figure 4.4: Kampala City

TASK.

Using the knowledge you have acquired on the environment, prepare a speech of not more than 1000 words emphasizing the causes of environmental degradation and how to conserve our surroundings for the future generations.

Item 3.

Imagine your friend has completed primary school. And she wants to join secondary but among the subjects she is interested in is geography but she needs advice from you on the importance of the subjects for her future.

Task

Write an advice message highlighting to her the important knowledge and skills of learning geography.
